EVOLUTION™ AIR PURIFIER EVOLUTION RETURN AIR PURIFIER

HEALTHIER INDOOR AIR FOR YOUR FAMILY

Models DGAPA, RGAP

COMFORTABLE CHOICES FOR YOUR INDOOR AIR

At Bryant, we know you want your home to feel comfortable and healthy. Your Bryant dealer knows this as well and will help guide you through the entire heating and cooling decision process, including improving your home's indoor air quality. Because indoor air is under constant attack from airborne pollutants, you need an effective defense – the kind you get with the Evolution air purifier or Evolution return air purifier.

CREATING A HEALTHIER HOME

As you relax in your home, you are surrounded by airborne pollutants at a rate that can be 2-5 times greater than outdoor air. Evolution air purifiers, featuring our patented Captures & Kills® technology, offer proven, 99% inactivation of select captured viruses and germs¹ when used as instructed to help create a healthier home.

THE EVOLUTION AIR PURIFIER AND RETURN AIR PURIFIER WORK IN THREE SIMPLE STEPS:

Charge

The purifier creates a “cloud” of electrically charged ions that attach themselves to airborne dust, pollen, viruses, germs and other particles as they pass through.

Capture

The ionized particles are pulled toward an oppositely charged, pleated MERV 15 rated filter and captured at an extremely high rate, similar to how a magnet attracts metal shavings.²

Evolution air purifier

Evolution return
air purifier

Kill

Captured airborne microbes remain on the pleated filter instead of recirculating back into the home and are subjected to an intense electric field. There, 99% of select viruses and bacteria are inactivated.¹

¹ The Evolution air purifier and return air purifier have demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, both air purifiers can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the MERV 15 Evolution filter to be inactivated at 99%.

² MERV is a filter efficiency standard ranging from 1 to 16 (higher MERV = higher efficiency). The Evolution air purifier achieves a MERV 15 rating based on third-party testing (2012) showing 95% of particles size 1.0 to 3.0 microns captured and 85% of particles size 0.3 to 1.0 microns captured.

OUR BEST DEFENSE OFFERED IN TWO APPLICATIONS

Indoor air circulates through your home's return air ducts, into the heating and cooling system, then back into your home's living areas. It is full of tiny particles from both natural and manmade sources such as pollen, dander, mold, tobacco smoke, exhaust and select viruses and bacteria. The largest of these particles settle on interior surfaces and appear as dust. Smaller particles also settle but become airborne again with the slightest disturbance.

Our best defense – the Evolution air purifier and now the Evolution return air purifier – provides you two distinct choices for including this important technology in homes where installation may not have previously been an option.

EVOLUTION AIR PURIFIER

The Evolution air purifier is installed on or near the furnace/air handler of your home's indoor comfort system to help reduce airborne particles that circulate throughout your home. Filtering these pollutants keeps the equipment components cleaner, and more importantly, reduces unwanted particles from the air you breathe.

EVOLUTION RETURN AIR PURIFIER

The Evolution return air purifier is installed in the ceiling or wall return air grille to filter airborne particles that circulate throughout the home. This application is used when space does not permit the Evolution air purifier to be installed next to the furnace or air handler.

Decorative grille cover not included.

CHOOSE BRYANT AND YOU'RE COVERED

When you trust your comfort to Bryant, you're making the smart choice. It starts with professional product recommendations from your builder and installation from your local Bryant dealer. Then you can relax, knowing our products are built to endure, and are backed by robust warranty coverage.

LIMITED WARRANTY

To the original owner, the Evolution air purifier and Evolution return air purifier are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate at bryant.com for complete details and restrictions.
